Can I use an emulator to play Call of Duty: Mobile?

No, Call of Duty: Mobile does not support the use of emulators.

. Because you're not installing CoD's malware and they're a crappy company. Also got banned today using BlueStacks 5 after match, and that will be my second time.

COD Mobile doesn't release any official emulators, but it is legal to play this game on PC using emulators like GameLoop.

. Therefore, you will not get banned using GameLoop, and some players get banned because of the anti-cheat system, not because of using emulators.
